

APPENDIX E-053 V

SUPPLY CONTROL FILE (SCF) PROGRAM
REQUIREMENTS TRAILER MAINTENANCE DOCUMENT VIOLATIONS

1. INPUT DOCUMENT

Appendix B-53, SCF Program Requirements Trailer Maintenance Document, DIC ZRS.

2. INPUT PROCEDURE CHART

SCF Program Requirements Trailer Maintenance (NSN).

3. PURPOSE, CONTENTS AND RESPONSIBILITIES

This appendix is applicable to chapter 25 and provides instructions for the research, correction, and reentry of SCF Program Requirements Trailer Maintenance Documents, DIC ZRS, which have been rejected from computer processing. Reasons for computer rejection, by VRC, in alphabetical order, are listed below. The IM, Directorate of Clothing and Textiles, Defense Personnel Support Center, is responsible for processing these VRCs.

<u>VIOLATION REASON CODE</u>	<u>DEFINITION</u>
AC	RIC To Invalid, Blank, or Unmatched.
AJ	PGC Invalid.
AY	NSN/PSCN Invalid, Blank, Unmatched, or Duplicated.
B4	Key Element Management Policy Table Invalid.
CF	Action Code Invalid or Blank.
E5	Field that Must have Data Contains Blanks.
02	Personnel Related Item Code Invalid.
PU	Input Does Not Match Record.
ST	Support Date Invalid.
WQ	Proposed Action Already Reflected in File.
8Y	Data Not Numeric.

4. PROCESSING/RESEARCH INSTRUCTIONS

a. VRC AC.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that the input Routing Identifier Code (RIC), pos. 4-6, is not S9T.

(2) PROCESSING/RESEARCH REQUIRED

Enter S9T and prepare for reentry IAW paragraph 5.

b. VRC AJ.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC, RD, RF, RG, or RH in pos. 79-80 reflects a Procurement Group Code (PGC), pos. 22-26, which contains characters other than all numerics greater than all zeros.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original PGC as it appeared when the error was detected. Check pos. 22-26.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Enter the appropriate PGC, referring to appendices A-116, F-89, and F-116, and prepare reentry as outlined in paragraph 5.

c. VRC AY.

(1) REASON FOR VIOLATION/ERROR CONDITION

(a) Indicates that a SCF Program Requirements Trailer Maintenance Document contains an NSN in pos. 8-20 which is not all numeric.

(b) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RJ in pos. 79-80 contains an NSN in pos. 8-20 which does not match an NSN in the NIR File.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original NSN error as it appeared when the violation was detected. Check the NSN field, pos. 8-20.

(b) Processing personnel will determine the correct NSN by referring to the documents which were the basis for the original input. Prepare reentry as outlined in paragraph 5.

d. VRC B4.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC or RD in pos. 79-80 contains an End Item NSN in pos. 8-20 unmatched to an End Item PGC in pos. 22-26 in Management Policy Table (MPT) 011.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original End Item NSN and End Item PGC as they appeared when the error was detected. Check the NSN field, pos. 8-20, and the End Item PGC field, pos. 22-26.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Refer to appendices A-116, F-116, and F-271 and prepare reentry as outlined in paragraph 5.

e. VRC CF.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that the Action Code entered in pos. 79-80 of a SCF Program Requirements Trailer Maintenance Document is other than RC, RD, RE, RF, RG, RH, or RJ.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original Action Code as it appeared when the violation was detected. Check the Action Code field, pos. 79-80.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Determine the correct Action Code and prepare reentry as outlined in paragraph 5.

f. VRC E5.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RE in pos. 79-80 contains blanks in the Program Identification (PIC) field, pos. 27-31.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original action as it appeared when the violation was detected.

(b) Processing personnel will review documents which were the basis for the original action to determine the correct PIC. Prepare reentry as outlined in paragraph 5.

g. VRC 02.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RE in pos. 79-80 reflects an invalid Program Forecast Code (other than I or R) in pos. 32.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original Program Forecast Code as it appeared when the violation was detected. Check the Program Forecast Code field, pos. 32.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Determine the correct Program Forecast Code and prepare reentry as outlined in paragraph 5.

h. VRC PU.

(1) REASON FOR VIOLATION/ERROR CONDITION

(a) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC or RD in pos. 79-80 reflects:

1. An End Item Procurement Group Code (PGC), pos. 22-26, which does not match a PGC in the Program Data Reference File (PDRF) Trailer for the Program Identification Code (PIC) reflected in pos. 27-31.

2. A Program Forecast Code (PFC), pos. 32, which does not match the PFC in PDRF Trailer for the PIC reflected in pos. 27-31.

(b) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RD or RE in pos. 79-80 reflects an End Item NSN, pos. 8-20, which does not have a Program Requirements Trailer in the SCF for the PIC/PFC reflected in pos. 27-32.

(c) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RF or RG in pos. 79-80 reflects a GFM NSN, pos. 8-20, which does not match an NSN in the GFM Cross-Reference File for the End Item PGC reflected in pos. 22-26.

(d) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RG or RH in pos. 79-80 reflects a GFM NSN, pos. 8-20, which does not have a Program Requirements Trailer of the Supply Control File for the End Item PGC reflected in pos. 22-26.

(2) PROCESSING/RESEARCH REQUIRED

The Violation Document provides the original action as it appeared when the error was detected. Processing personnel will review the violation output to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original input. Determine the correct End Item NSN, GFM NSN, End Item PGC, or Program Identification Code, or Program Forecast Code as applicable and reenter as outlined in paragraph 5.

i. VRC ST.

(1) REASON FOR VIOLATION/ERROR CONDITION

(a) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC, RD, RF or RG in pos. 79-80 reflects other than all numerics greater than zero for the:

1. Support Date - First Month, pos. 33-36.
2. Support Date - Second Month, pos. 45-48, or
3. Support Date - Third Month, pos. 57-60.

(b) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code PR, RD, RF, or RG in pos. 79-80 reflects a Support Date in pos. 33-36, 45-48 and/or 57-60 which is either prior to the current month-year date or greater than 36 months from the beginning of the current fiscal year.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original Support Date error as it appeared when the violation was detected. Check the first Month Support Date field, pos. 33-36, the second Month Support Date field, pos. 45-58, and third Month Support Date field, pos. 57-60, as applicable.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Determine the correct Support Date(s) and prepare reentry as outlined in paragraph 5.

j. VRC WQ.

(1) REASON FOR VIOLATION/ERROR CONDITION

(a) Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC in pos. 79-80 reflects an End Item NSN in pos. 8-20 which already has the Program Identification Code/Program Forecast Code, pos. 27-32, in the SCF Program Requirements Trailer.

(b) Indicates that a SCF Program Requirements Trailer with Action Code RF in pos. 79-80 reflects a GFM NSN in pos. 8-20 which already has the End Item PGC, pos. 22-26, in the SCF Program Requirements Trailer.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original NSN as it appeared when the violation was detected. Check the NSN field, pos. 8-20.

(b) Processing personnel will review the documents which were the basis for the original action to determine why an attempt was made to add a SCF Program Requirements Trailer already recorded for the NSN. If some other action was intended, prepare reentry as outlined in paragraph 5. If action was input in error, discard violation.

k. VRC 8Y.

(1) REASON FOR VIOLATION/ERROR CONDITION

Indicates that a SCF Program Requirements Trailer Maintenance Document with Action Code RC, RD, RE, or RF in pos. 79-80 reflects other than all numerics for the:

(a) Requirements Quantity - First Month, pos. 37-44,

(b) Requirements Quantity - Second Month, pos. 49-56, or

(c) Requirements Quantity - Third Month, pos. 61-68.

(2) PROCESSING/RESEARCH REQUIRED

(a) The Violation Document provides the original Requirements Quantity error as it appeared when the violation was detected. Check the First Month Requirements Quantity field, pos. 37-44, the Second Month Requirements Quantity field, pos. 49-56, and the Third Month Requirements Quantity field, pos. 61-68, as applicable.

(b) Processing personnel will review the Violation Output Document to detect and correct any obvious format errors. If correction cannot be made, refer to the documents which were the basis for the original action. Determine the correct Requirements Quantity(ies) and prepare reentry as outlined in paragraph 5.

5. REENTRY INSTRUCTION

a. Review the data elements contained in the Violation Output to detect any other invalid data and correct as necessary.

b. Reentry methods for violations are contingent upon type of violation. Type of output is an option recorded in the ORC Table (appendix F-20). The following codes are the various options with their reentry instructions.

<u>CODE</u>	<u>OUTPUT</u>	<u>REENTRY</u>
1	ZLR - Controlled Violation Listing, Appendix F-122	Using either Violation Listing, appendix F-122 or Violation Suspense Reentry Document, appendix B-66, enter correct data and/or Violation Reentry Code (appendix A-62) with colored pencil or ink and submit as prescribed in appendix E-006 P.
3	Uncontrolled Violation, Appendix F-117	Reentry, when required, is accomplished as prescribed in appendix E-346 P.

6. FLOWCHART

Flowchart not required.
